(Smaller Authorities Proper Practices Panel (SAPPP))

For authorities covered by this Guide, an appropriate and commonly used method of fixed asset valuation for first registration on the asset register is at acquisition cost. This means that in most circumstances once recorded in the asset register, the recorded value of the asset will not change from year to year, unless the asset is materially enhanced. Commercial concepts of depreciation, impairment adjustments, and revaluation are not required or appropriate for this method of asset valuation. For reporting purposes therefore, the original value of fixed assets will usually stay constant throughout their life until disposal.

Approved at Full Council: 26th February 2026 (FTC/25/190)

Next Review: March 2027
